ABOUT ME

Dedicated Full-Stack MERN Developer with hands-on experience in designing and building scalable, secure, and high-performance web applications. Proficient in developing responsive user interfaces, RESTful APIs, database architecture, and end-to-end application development. Passionate about writing clean, maintainable code and delivering efficient, user-centric solutions that solve real-world business problems.

EDUCATION

Bachelor's Of Computer Application(Hons) July 2023 - PRESENT
Gujarat University

SKILLS

- **Frontend:** HTML, CSS, Media Query, JavaScript(ES6+)
- **Backend:** NodeJS
- **Database:** MongoDB
- **Libraries :** jQuery, ReactJS, Redux & Redux Toolkit (RTK)
- **Frameworks :** Bootstrap, ExpressJS
- **Tools:** Git/GitHub
- **Other Knowledge:** REST API Integration, Responsive Web Design

WORK EXPERIENCE

FULL STACK DEVELOPER (MERN) March 2026 - PRESENT
AlgoVista Analytics

- Designed, developed, and deployed end-to-end MERN stack web applications, ensuring responsive design, scalable architecture, optimized performance, and seamless user experience across all devices.
- Integrated AI-driven capabilities, including intelligent insight panels, enabling users to gain actionable insights and streamline business workflows.
- Built interactive business dashboards and ERP solutions with real-time analytics, data visualization, role-based access, and dynamic reporting to support data-driven decision-making.

PROJECTS

EpicAura Event Management | React.js, Node.js, Express.js, MongoDB LINK

- Developed a event management platform for seamless event discovery, booking, and management.
- Built responsive user interfaces with secure authentication, real-time booking, and role-based access.
- Designed scalable REST APIs and MongoDB integration to deliver a smooth, efficient, and user-friendly event experience.

Parcelos Logistics Platform | React.js, Node.js, Express.js, MongoDB LINK

- Developed a full-stack logistics platform for parcel booking, real-time tracking, and delivery management.
- Implemented secure authentication, role-based dashboards (Customer, Partner, Admin), and Google Maps integration for navigation and ETA.
- Built scalable REST APIs, optimized order workflows, and designed a responsive UI to deliver a seamless logistics experience.
